

DADE SERVICE CORPORATION

Design & Construction of Ripening Rooms
and Produce Coolers since 1954

Perishable Distribution Facilities

For the Preservation of Fruits, Vegetables, Flowers, Meats, Dairy, and other Perishable Products

Superior Product Quality is maintained by providing the optimum storage conditions in Cold Storage and Ripening Rooms Designed and Built by **Dade Service Corporation**.

Dade Service Corporation has been providing Cooling and Ripening Solutions since 1954. Our experience and knowledge gained over this time allows us to properly assess a client's needs to then design the highest quality facilities thus ensuring the proper maintenance of Product Quality, efficient product handling, lower sanitation cost, and lower energy cost. We continually integrate innovative new technologies into our Designs to deliver the most advanced Cold Storage and Ripening Rooms available.

- **DESIGN-BUILD SERVICES** provide faster completion times, lower construction costs, and higher quality. All parties work together as a team to achieve the end result.
- **STATE-OF-THE-ART DESIGNS** deliver rooms which meet the strict hygienic requirements of today and tomorrow. All materials are selected to be easily cleanable and corrosion resistant to provide a safe storage environment and lower sanitation cost.
- **BUILT TO LAST** - Engineered insulated panel systems combined with our specific details and Clean "T" ceiling support system provide a room envelope with unsurpassed insulating value, strength, and longevity.
- **ADVANCED COOLING SYSTEMS** provide the optimum storage conditions to minimize product shrink, maximize profits and ensure more food for the World's table while providing lower energy consumption.
- **COMPUTER CONTROLS** ensure total control of the facility conditions, optimized equipment operation, remote access, alarm and reporting features.

We invite you to contact **Dade Service** for your next Ripening Room or Produce Cooling Project.
