

For the Preservation of Fruits, Vegetables, Flowers, and other Perishable Products

Superior Product Quality is maintained by providing optimized storage conditions in Produce Cooling Rooms Designed and Built by **Dade Service Corporation**. We provide the following types of Produce Cooling Rooms:

- Coolers for long term storage
- Coolers for heavy cooling applications
- Coolers for high volume distribution or bulk storage
- Coolers with flexible temperature ranges and zones for multiple product use
- Packing/Processing/Fresh Cut Cooler Rooms
- Rapid Cool Rooms or Special Applications

We Design and Build high quality Coolers that incorporate the following State-of-the-Art technologies and specifications to deliver the most advanced Cooling Solutions available.

- **FOOD SAFE DESIGNS:** All coolers feature walls and ceilings with USDA approved finishes and easy to clean surfaces. *DASERCO Brand* Air Coolers feature food grade paint finish, spray resistant motors, and hinged fans to allow sanitizing interior of the unit.
- **ENVIROMENTALLY FRIENDLY:** All coolers feature high efficiency cooling systems and superior insulating systems to lower your Carbon Foot Print and energy costs.
- *DASERCO Brand* Control Systems provide optimum temperature, air flow, and humidity levels for produce storage to minimize product shrink and maximize profits.
- **BUILT TO LAST:** All materials and finishes are selected for durability, corrosion resistance, and longevity.
- **EFFICIENT DESIGNS:** Room Layouts are designed to maximize facility efficiencies.
- **FLEXIBLE DELIVERY:** We can provide coolers from the ground up, rack supported, or renovate existing buildings. From a single cooler room to a complete Distribution Center, Dade Service can deliver on time and within budget.

We invite you to contact **Dade Service** for your next Ripening Rooms or Produce Cooling Project.
