# Pressurized Fruit Ripening Rooms

## Avocado Ripening Rooms

**Turn-Key Solution** From Design to Construction, we oversee the entire installation and utilize TEAM DADE ripe room specialist to ensure high quality installs—every time.

**High Volume Air Flow** of 1400 CFM or more, provide for consistent and even avocado ripening. Our Room Proposals come with guaranteed results.

**Patented, Tarp-Free Rooms** reduces maintenance required and provides for easier loading.

**Industry Leader in Energy Efficiency** our equipment is selected to provide optimum ripening conditions and reduce energy usage, saving you money.

**Less Shrink = Greater Returns** DASERCO Brand Ripening Systems provide the perfect room atmosphere for Avocado Ripening. Fruit respiration and transpiration are controlled to a degree no other room can match, providing less product shrink.

**Reverse Air Flow** utilizes **VFD Technology** to provide the most even air flow across the palletized product, guaranteeing the most even ripening.

**High-Tech Controls** provide total control of all set-points via high, tech industrial grade touch-screen.

**Automated Ripening Schedule** allows you to input the entire ripening schedule upon product loading.

**Superior Supervisory Options** are available. The Supervisory Computer package provides for back-up controls, continuous data logging and remote troubleshooting. Rooms can be monitored at all times through a remote location.

Ripening over 50 million Avocados in  
Our Rooms Every Day!
